Join us for a neurological health and stroke awareness event

Understand how neurological conditions impact your health—and what you can do to reduce your risk.

Join us for a special combined session bringing together the Diabetes, Brain Injury & Stroke and Better Breathers support groups. This informative discussion will explore how disease processes affect the body's neurological systems, with a focus on stroke awareness and prevention.

Hear from **Shellee Stine, RN**, and **Dr. Stephen Smith, Chief Medical Officer**, as they share practical insights on understanding neurological health and reducing stroke risk.

Wednesday, May 27, 2026

11:00 AM - 12:00 PM

Nagula Conference Room

Open to the public. No registration required.
